

HOTELL *Blå Blom*

Welcome!

Our personal and cozy hotel and conference can be found in the middle of Gustavsberg Harbor near both the Archipelago and the city

At the hotel

In our "Living Room" you can hang out, have a drink and play billiards, mini ping pong, social games and listen to music or watch TV. Here you can also buy coffee & tea.

Downstairs there is a sauna & relax. When the weather permits, you are welcome to our outdoor dining area which is located in our courtyard, maybe for a coffee or something cool to drink.

Food & Beverage

After the season and as far as possible, our food is produced from our sisterhotel Skeviks Gårds own plantations or locally produced rawproducts from our neighbors here at the district of Värmdö. Our selection of wines are completely ecologically and our beer is from a Värmdö local brewery

More info about us

You can find more info on our website www.blablom.se

Explore the harbor

Gustavsberg Harbor has grown in recent years and is a gathering place for artists and craftsmen. Here you will find shops with antiques, china, clothes and gifts.

Outlet stores like Ittala, Gustavsbergs Porslinsfabrik and Orrefors Kosta Boda

A few meters from the hotel is Gustavsbergs Konsthall and also Gustavsbergs Porcelain Museum, which opens in summer 2020. Take a nice walk along the water towards the guest harbor and continue on the Tjustvik-track and experience the forest and nature. On the other side of the bay is the light rail track in the Ekedals track.
